

# FasseTrack

**Get on the FasseTrack to Asset Tracking & Inventory Control!**

## FasseTrack

FasseTrack is fielded, Commercial Off-the-Shelf (COTS) software that provides comprehensive tracking of any number of different physical assets and other items with full barcode and RFID support. Compusult has supplied FasseTrack to many different clients for almost two decades, including the U.S. Department of Defense (DoD) and Federal and State Government agencies to track buildings and their contents, property book items, warehouse inventory, weapons, equipment, and more.

## FasseTrack Check-In/Check-Out

**Electronic tracking of items and consumables in any organization.**

FasseTrack Check-In/Check-Out automatically records check-in and check-out dates. It also fully supports barcode scanning to select and search for items, individuals and other information and provides reporting capabilities, as well as date-related reminder functions.

## FasseTrack Asset Management

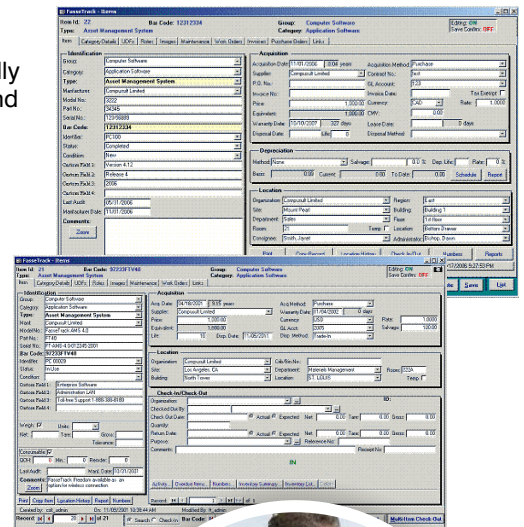

**A powerful, multi-user system for the electronic tracking of fixed assets.**

FasseTrack AMS simplifies identifying, locating and tracking all assets. FasseTrack maintains comprehensive information on more than 50 key parameters for each asset, including physical identification, acquisition, depreciation, location, consignee and other details.

## FasseTrack Inventory Control

**A detailed stock room and inventory control system.**

FasseTrack Inventory Control System (ICS) provides facilities for managing inventory, stock allocations, stock replenishment, vendor details, items ordered, item prices and other related data in an easy-to-use, integrated environment. It fully supports barcode scanning to select, search and update inventory items and also provides a variety of useful reports.

## FasseTrack Mobile

**Manage and track your assets from your mobile device.**

FasseTrack Mobile is a portable data management system for electronic data collection and tracking of items within your organization. The latest version now runs on IOS and Android based phones and tablets, as well as Janam and Aceeca PDTs. It also supports RFID tag reading and barcode scanning.

# FasseTrack FREEDOM

*Real-Time Access to Your Data,  
Wherever and Whenever,  
By Wireless or Web Connection!*

## Wireless & Web Access

FasseTrack Freedom lets you access your FasseTrack data in real-time wherever and whenever there's a Web connection.

It can be used to remotely manage and track data for applications such as:

- Item Check-In/Check-Out
- Asset Management
- Inventory Control

FasseTrack Freedom offers you the same ease-of-use and direct control over your organization's data holdings as FasseTrack, with the added benefit of remote, wireless and/or Web-based access. Item details can be directly verified and updated in real-time, so your information is always up-to-date. FasseTrack Freedom is also economical, reliable, and secure.

## FasseTrack Freedom Customization

In addition to the many features and flexibility built into FasseTrack Freedom, there may be other requirements that your organization needs. Compusult can produce custom versions of FasseTrack Freedom to accommodate any desired functionality. We also provide training, data conversion and technical support services.
