

FasseTrack ICS

Inventory Control System

Inventory control and materials management in a powerful, easy-to-use, and up-to-date package !

FasseTrack ICS is a powerful and user-friendly system for electronic tracking and maintenance of inventory within your organization.

Inventory Control System Functions

FasseTrack ICS allows you to maintain detailed information on consumable items and materials for a variety of applications.

The FasseTrack ICS software includes the following core modules:

- A Supplier Information Form for viewing and updating Supplier or Vendor details and viewing items provided by each one
- An Item Information Form for viewing and updating Item information as well as a list of Suppliers of each Item
- A Stock Allocation Form to record material allocations
- A Stock Replenishment Form to record material replenishments
- An Orders Form for tracking orders to Suppliers. Orders and Purchase Order forms can be generated automatically by the system or manually by the user
- A Quick Inventory Update Form that allows you to scan or enter a bar code and then quickly update inventory counts for the associated item
- A Quick Inventory Check Form that allows you to scan or enter a bar code and quickly check inventory status for the associated item
- An Inventory List Form for viewing all items in inventory
- A System Administration Facility

Full Bar Code Capability

FasseTrack ICS features comprehensive bar code support, including:

- Data entry and searching using bar code scanners and readers
- Compatibility with almost any type of bar code
- Bar code label printing on standard laser and ink jet printers
- Synchronization
- Data transfers to and from any third-party portable data collection terminal that uses ASCII files and a serial interface

Support for Persons with Disabilities

FasseTrack ICS is available as a speech-enabled system that allows blind, visually impaired, and/or print impaired employees to independently access and use almost all aspects of the software. FasseTrack ICS is an asset to organizations that wish to accommodate persons with disabilities and meet requirements of legislation such as the Americans with Disabilities Act and Section 508 of the Rehabilitation Act.

FasseTrack ICS Customization

In addition to the many features and flexibility built into FasseTrack ICS, there may be other requirements that your organization especially needs. No problem. Compusult can produce custom

versions of FasseTrack ICS to accommodate any desired functionality. We also provide training, data conversion, and technical support services.

Call us toll free at **1-888-388-8180** or send e-mail to info@fassetrack.com for more details or a free quotation.

Licensing and pricing information for FasseTrack ICS and various options are available upon request.
