Outspoken Communicator Mobile System

Compusult's Outspoken Communicator Mobile System is a high-quality portable Augmentative and Alternative Communication (AAC) solution. It includes your choice of Proloquo2Go, Proloquo4Text, Predictable, Assistive Chat and/or other AAC software, pre-installed on an Apple iPad Air/Air2 or iPad mini 4, as well as optional accessories.

AAC Software Options for you!

The Outspoken Communicator Mobile System can be configured with any or all of the following AAC Software options. Choose the solution that works best for you!

Proloquo2Go and Proloquo4Text

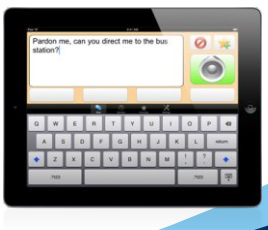
These products from AssistiveWare are advanced communication solutions for anyone who can operate an iPad. Proloquo2Go has both symbols and text entry methods and features a beginning vocabulary of over 7,000 words and phrases, with a capacity for 14,000 symbols. Users can access 32 male and female voices. It has switch scan modes. Proloquo4Text is a text-based app with prediction while you type. Access 95 voices in 15 languages as free downloads.

Predictable

Predictable from TherapyBox is a cost-effective and unique communication aid for people with speech disabilities. It lets you type messages more efficiently via a sophisticated word prediction engine, and then speak the messages using your choice of customizable Nuance TTS voices and a U.S. or UK dictionary. Predictable offers you an innovative and effective communication solution. It has in-app switch scan modes.

Assistive Chat

Assistive Chat from Assistive Apps is another cost-effective solution for individuals with speech disabilities. It's simple, efficient and lets you communicate quickly with natural sounding voices. It incorporates Word Prediction to minimize keystrokes and a favourites list saving your most commonly used sentences. With three voices to choose from, Assistive Chat is a flexible and useful communication tool.



- ***Available with Proloquo2Go, Proloquo4Text, Predictable or Assistive Chat***
